FAN ENERGY RATING INFORMATION:

The Fan Energy Rating (FER) deadline is July 3, 2019. Once FER takes effect, furnaces may no longer be manufactured unless they are certified to meet the minimum efficiencies outlined in the standard. In order to make sure Trane has a fully compliant lineup, a few changes had to be made to some of our existing S-Series and Legacy model families. Please review the information below for details regarding these changes.

MODEL FAMILY	CHANGE	DESCRIPTION	IMPORTANT DATES
XV95	Ceases production: July 3, 2019	This model family fails to meet FER standards and must be discontinued. For liquid propane (LP) applications please stock appropriate amounts of Gold 95, or use S9X2 as it receives LP sound improvements in August 2019. S9V2 and S9V2-VS model families will receive LP sound improvements in Q1 of 2020.	Last Order: May 31, 2019 Last Production: July 2, 2019
XC80	Discontinuing model TUD2B100ACV32B	Unit can't meet FER standards.	Last Order: June 14, 2019 Last Production: July 2, 2019
XV80	Discontinuing model TUD2B100A9V3VB	Unit can't meet FER standards.	Last Order: June 14, 2019
	Discontinuing model TUD2D140A9V5VB	Unit can't meet FER standards.	Last Production: July 2, 2019
S9V2	Discontinuing model S9V2B080U3PSBB	S9V2B080U4PSBB exists and can be used in place of S9V2B080U3PSBB. AHRI ratings will be matched when possible using the 4 ton model.	Last Order: June 14, 2019
	Discontinuing model S9V2B080D3PSBB	S9V2B080D4PSBB exists and can be used in place of S9V2B080D3PSBB. AHRI ratings will be matched when possible using the 4 ton model.	Last Production: July 2, 2019
S9V2-VS	Discontinuing model S9V2B080U3VSAB	New model, S9V2B080U4VSAB, will replace S9V2B080U3VSAB. AHRI ratings will be matched when possible using the 4 ton model.	Last Order: June 14, 2019
	Discontinuing model S9V2B080D3VSAB	New model, S9V2B080D4VSAB, will replace S9V2B080D3VSAB. AHRI ratings will be matched when possible using the 4 ton model.	Last Production: July 2, 2019
