

Trane Humidifier Maintenance Kits

eTPB2125 | August 10, 2021

IMPORTANT DATES

First Production:
September 2021

We are introducing upgraded maintenance kits which include everything you need to keep the humidifier operating just like the day it was installed. Routine maintenance on a humidifier is necessary to maintain optimal performance, while also benefiting dealers by offering a touchpoint with the customer. At minimum the water panel should be replaced annually.

First Ship:
September 2021
