

Furnace Phase out Notice (Select Models)

eTPB2106 | February 23, 2021

IMPORTANT DATES

Last Order:

February 26, 2021

Last Production:

April 2021

In conjunction with the launch of our updated S8B1, S8X1, S8X2 and S9V2 models in April 2021, we will be phasing out select furnace models. These phase outs will reduce the number of SKUs that have to be managed while maintaining functionality across the furnace product line.

The charts shown below detail the models phasing out and their future replacement.

Orders placed before February 26, 2021 will receive priority in fulfillment. All orders that cannot be fulfilled will be superseded to the appropriate model as shown below. Details surrounding the launch of the upgraded S8B1, S8X1, S8X2 and S9V2 families will follow in later bulletins.

Model Phasing Out	Superseding Model
S9V2B060U3PSB	S9V2B060U4PSB
