Trane is pleased to announce the launch of new XV18 and XV20 TruComfort™ variable speed air conditioner models.

These new models have been developed in preparation for the future launch of an all new lineup of Trane Link communicating equipment coming in 2022. To prepare for this future release, these models have dual capability to operate with all existing ComfortLink II variable speed indoor equipment and controls as well as the future release of Trane Link air handlers and smart thermostat.

The table below details the models that are phasing out as well as their replacements.
