**New models will ship when current inventory is depleted*

Trane is introducing the new WeatherGuard™ III Top for all XV20i, XL18i, and XL16i units manufactured in Tyler, Texas.

Benefits of this new top design:

- Attractive, low-profile styling and color matched to the DuraTuff™ Basepan
- UV inhibitors resist fading and chalking
- Louver design reduces icing during severe operating conditions
- Concave top and corners effectively channel rain away from the louvers for improved cold weather performance
- Provides additional protection for small children playing near the unit
- Protects A/C and heat pump by keeping snow, rain, leaves, and debris out
- New Trane badge securely attached with automotive-grade adhesive
