

95% Variable Speed Furnace Updates

eTPB2206 | February 4, 2022

IMPORTANT DATES:

Estimated First Order:

5 ton models – February 14, 2022

4 ton models – March 7, 2022

3 ton models – Week of
March 28, 2022

First Ship:

As current inventory is depleted

Pricing Info:

Coming Soon

*No price changes from current models

Ratings:

AHRI ratings available soon at

AHRIDirectory.org

In mid-February, the S9V2 and S9V2-VS models listed in the chart below will be updated to include a new blower motor. This change will take place at various times depending on the unit's motor size. The chart below details the models that are phasing out, their replacement and transition timeline.

Transition timing on 3- and 4-ton units are in the process of being finalized. We will issue a communication when firm production timelines are available.

Most AHRI system ratings will **not** be impacted with this change. A few, select ratings that extend to the 14th digit of the furnace model are in the process of being updated and will be posted to AHRI as soon as possible. Pricing will remain consistent between existing and new offerings.

Existing orders will be superseded to the new model as units become available. Orders placed on models that are phasing out will be fulfilled based upon unit availability.

All models are subject to current lead times.

Product Family	Current Model	New Model	Production Transition Timing
S9V2	S9V2B040U3PSBC	S9V2B040U3PSBD	March 2022
